COMMENT INFERRED REFSEQ: This record is predicted by genome sequence

analysis and is not yet supported by experimental evidence.

The

reference sequence was derived from BK000408.

On Oct 3, 2005 this sequence version replaced gi:33694637.

This record represents an alternative annotation for M73260

M29978.

It is included in the NCBI RefSeq collection as an

alternative to the reference sequence NC_001405.

COMPLETENESS: full length.
